SUMMARY

Apple Platform Engineer with **8+** years of experience designing and delivering secure, scalable native applications across iOS and macOS using Swift, SwiftUI, UIKit, and modern Apple frameworks and technologies.
Experienced in application architecture, Swift Concurrency, secure networking, accessibility, localization (including Arabic RTL), CI/CD, and performance optimization.
Proven track record of building enterprise and government solutions, shipping production applications to the Apple App Store, and delivering high-quality user experiences from concept to release.

EXPERIENCE

Software Developer (On-site support)

Applab Qatar 03/2024 - 09/2024 Doha, Qatar

Tech: Swift, SwiftUI, REST APIs, MapKit, Firebase, Alamofire

- Developed 60+ production-ready SwiftUI screens from Figma designs, improving development efficiency by approximately 30% while maintaining pixel-perfect UI consistency.
- Contributed to production applications deployed for large-scale public-facing use cases
- Integrated backend services through the Volt MX platform, orchestrating end-to-end data flows between native applications and enterprise systems.
- Improved code quality and performance through structured refactoring and optimization
- Utilized Firebase, Alamofire, and Lottie for scalable and dynamic app features
- Collaborated closely with stakeholders in an onsite environment to ensure timely and high-quality delivery

Senior iOS Developer

AppStation Pvt. Ltd 10/2021 - Present Thiruvananthapuram, India

Tech: Swift, SwiftUI, UIKit, Swift Concurrency, REST APIs, MapKit, HealthKit, UserNotifications, Firebase, Push Notifications, Sentry

- Led end-to-end iOS feature development using Swift, SwiftUI, and UIKit across multiple enterprise and government applications.
- Designed and implemented scalable MVVM and Clean Architecture patterns, improving code maintainability, modularity, and long-term scalability.
- Built production-ready applications using Swift Concurrency (async/await) for asynchronous networking and responsive user experiences.
- Developed multilingual applications with localization support, including Arabic (RTL), ensuring seamless internationalization across enterprise products.
- Implemented accessibility features including VoiceOver and Dynamic Type to improve usability and compliance with Apple's accessibility guidelines.
- Implemented secure networking using SSL Pinning and Public Key Pinning across multiple production applications.
- Implemented API integrations and Apple frameworks including MapKit, HealthKit, UserNotifications, and Firebase to deliver feature-rich native experiences.
- Improved application performance, stability, and responsiveness through code optimization, debugging, and proactive issue resolution.
- Implemented CI/CD pipelines using Azure DevOps with Appium-based UI automation, streamlining build, testing, and release workflows.
- Collaborated with cross-functional teams, participated in code reviews, and mentored junior developers to maintain high engineering standards.

CORE EXPERTISE

SwiftUI & UIKit • **Accessibility** •
Application Security • **CI/CD** • **Localization (RTL)** •
Swift Concurrency • **CoreBluetooth** •
REST API Integration

TECHNICAL SKILLS

Languages
Swift, Objective-C

Apple Frameworks
SwiftUI, UIKit, MapKit, HealthKit, CoreBluetooth, UserNotifications, Combine

Architecture
MVVM, Clean Architecture, MVC, Repository Pattern, Dependency Injection

Concurrency
Swift Concurrency, async/await, MainActor

Networking
REST APIs, URLSession, Alamofire

Security
SSL Pinning, Public Key Pinning, Trust Evaluation

Localization & Accessibility
Arabic (RTL), VoiceOver

Tools
Xcode, Git, Bitbucket, SourceTree

CI/CD
Azure DevOps, Build Pipelines, Release Pipelines, Self-hosted Agents

Testing
XCTest, XCUITest, Appium, UI Testing

LANGUAGES

English	Proficient
Malayalam	Native
Hindi	Advanced
Tamil	Intermediate

EXPERIENCE

Software Developer
Softnotions Technologies Pvt. Ltd 04/2018 - 10/2021

Thiruvananthapuram, India

Tech: Objective-C, Swift, UIKit, REST APIs, CoreBluetooth

- Developed and maintained multiple native iOS applications using Swift, Objective-C, and UIKit.
- Implemented CoreBluetooth communication for real-time interaction with BLE peripherals and external hardware.
- Developed end-to-end features from UI implementation to REST API integration based on business requirements.
- Improved application stability and performance through debugging, optimization, and proactive issue resolution.
- Collaborated with cross-functional teams and participated in code reviews to deliver scalable mobile solutions.

SELECTED APPLE PLATFORM APPLICATIONS

SSL Inspector
https://apps.apple.com/us/app/ssl-inspector/id6759235383

Developer tool for inspecting SSL/TLS certificate chains, validating public key hashes, and exporting certificates for SSL pinning implementations.

- ***Tech***: SwiftUI, macOS

Qatar in Davos
https://apps.apple.com/us/app/qatar-in-davos/id6756599471

Discover Qatar's story through an immersive experience powered by the Government Communication Office.

- ***Tech***: SwiftUI, Swift

QNA News App
https://apps.apple.com/us/app/qna-news/id6738767985

Official news app for Qatar News Agency with real-time local and global updates.

- ***Tech***: UIKit, Swift, Accessibility, Public Key Pinning, App Security

Invest Qatar IPMS
https://apps.apple.com/pl/app/invest-qatar-dashboard/i d6471396345

Internal dashboard application for investment-related operations in Qatar.

- ***Tech***: UIKit, Swift

Q Weather - أرصاد قطر
https://apps.apple.com/us/app/q-weather-%D8%A3%D8%B1%D8%B5%D8%A7%D8%AF-%D9%82%D8%B7%D8%B1/id1463392050

Modern weather application supporting Qatar and international forecasts with multilingual and RTL support.

- ***Tech***: UIKit, Swift

QSFA
https://apps.apple.com/in/app/qsfa/id1316984329

Qatar Sports For All app helping users discover sports locations interactively.

- ***Tech***: UIKit, Swift, Firebase, HealthKit

CERTIFICATIONS

EFSET English Certificate (C2 Proficient)

One Million Prompters initiative by Dubai Future Foundation

EDUCATION

B.Sc. Electronics
ISDC

2012 - 2015

BTech. Electronics and Instrumentation
CUSAT

2007 - 2011
